

Column Sum In Query Preview

Question

How can I see the sum of an entire numeric value column in my query.

Answer

This can be done in the Query Preview Window through the Query Generator. Once the query has been run, hold Ctrl and single-click in the column header of the column for which you need a total.

Below is an example of how this would work:

Query Preview

SELECT T0.[ItemCode], T0.[ItemName], T0.[ItmsGrpCod], T0.[OnHand], T0.[OnOrder] FROM OITM T0 WHERE T0.[ItmsGrpCod] = '101' ORDER BY T0.[U_ORC_BE_PACK_TYPE]

1 Ctrl + single-click in each column header

#	Item No.	Item Description	Item Group	In Stock	Qty Ordered from Vendors
1	1005-B1222	Portlandia Porter - Case 12/22 Btl	101	949.00	0.00
2	1004-B212	Stout - Case 2/12/12 Btl	101	62.00	0.00
3	1001-B212	Amber Ale - Case 2/12/12 Btl	101	36.00	0.00
4	1006-B212	Blonde Bock - Case 2/12/12 Btl	101	737.00	0.00
5	1007-B212	Xmas Stout - Case 2/12/12 Btl	101	699.00	1,000.00
6	1008-B212	Pilsner - Case 2/12/12 Btl	101	29.00	0.00
7	1009-B212	Blonde - Case 2/12/12 Btl	101	999.00	1,000.00
8	1010-B212	Oktoberfest - Case 2/12/12 Btl	101	718.00	0.00
9	1010-B46	Oktoberfest - Case 4/6/12 Btl	101	828.00	0.00
10	1015-B46	Cider - Case 4/6/12 Btl	101	999.00	0.00
11	1009-B46	Blonde - Case 4/6/12 Btl	101	604.00	500.00
12	1008-B46	Pilsner - Case 4/6/12 Btl	101	213.00	0.00
13	1007-B46	Xmas Stout - Case 4/6/12 Btl	101	369.00	0.00
14	1006-B46	Blonde Bock - Case 4/6/12 Btl	101	473.00	550.00
15	1001-B46	Amber Ale - Case 4/6/12 Btl	101	964.00	221.00
16	1002-B46	Pale Ale - Case 4/6/12 Btl	101	273.00	1,000.00
17	1003-B46	IPA - Case 4/6/12 Btl	101	473.00	1,000.00
18	1004-B46	Stout - Case 4/6/12 Btl	101	155.00	1,000.00
19	1004-B46-N	Stout (Nitro) - Case 4/6/12 Btl	101	0.00	0.00
20	1005-B46	Portlandia Porter - Case 4/6/12 Btl	101	221.00	0.00
				9,801.00	6,271.00

2 The sum will appear at the bottom of column
