

## PARTNERLINK

*The Encompass PartnerLink Program enables third-party hardware and software vendors to integrate solutions with the growing Encompass Distributor Network. Our goal is to provide our customers with the best possible solutions on the market to move businesses forward, with true collaboration.*

The extensible Encompass Technologies Platform has expanded its capability to integrate with third-party solutions. We understand that you may want to use applications available in the marketplace with your Encompass environment, and now, it's easier than ever to take control of your own platform.

In order to ensure seamless integration and accesible support, Encompass Partners participate in certification programs.

## PARTNERS

### SEAMLESS INTEGRATION

- Combined system functionality for enhanced capabilities
- Seamless data transfer - accurate data, aggregated in one place
- Real-time information

### SUPERIOR FUNCTIONALITY

- Build a solution tailored to your business needs
- Select the right systems for each department
- Experience true platform ownership

*If you're interested in solution integration, please give us a call to get started!*
