

# QC Worksheet

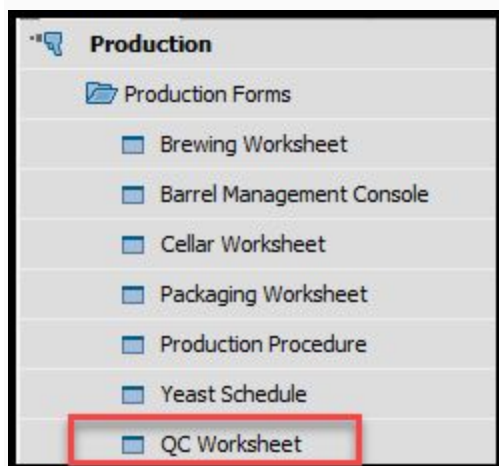

## Summary

The QC Worksheet is a central location for a user to enter data into the various QC matrices within Orchestrated.

NOTE: If the iPad Production app is being used to track QC, the data will show in your Orchestrated system.

## Brewing QC

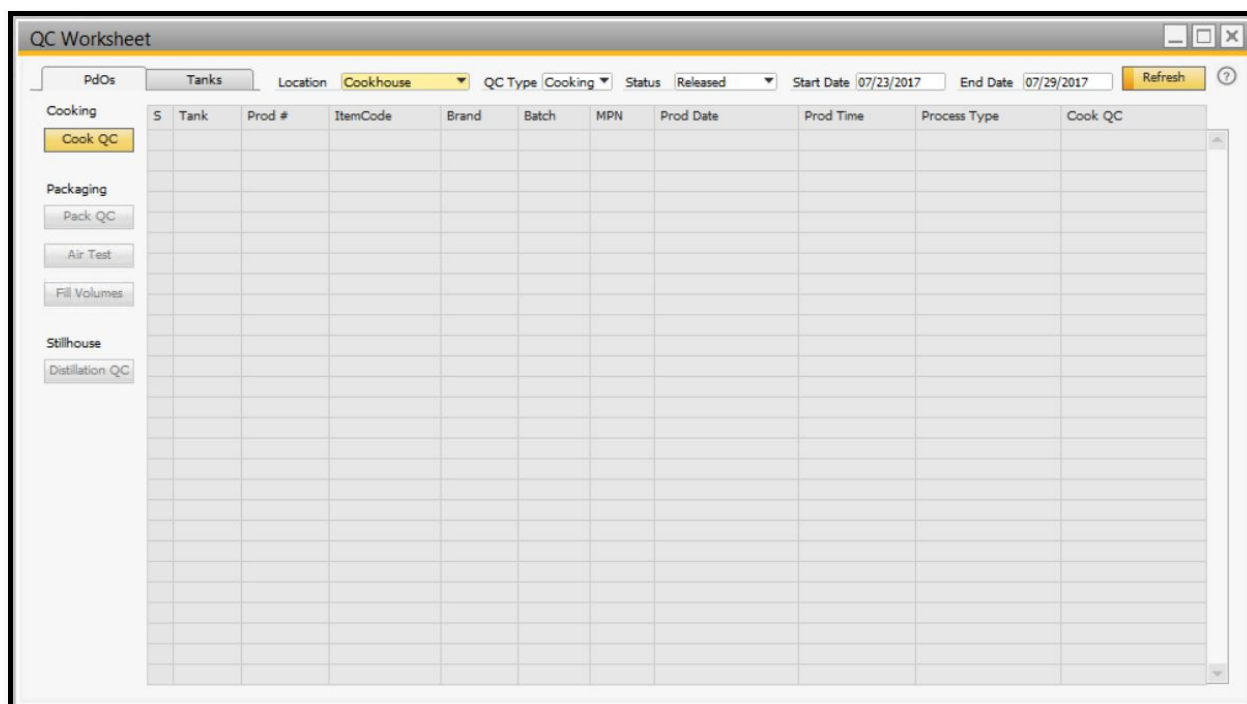

In order to enter Brew QC, make sure that the *QC Type* is set to Brewing. You can then select a PdO, click **Brew QC** and enter your QC data.

The screenshot shows the 'QC Worksheet' application window. The 'Tanks' tab is selected, and the 'QC Type' is set to 'Brewing'. The 'Status' is 'Planned/Released'. The 'Start Date' is '07/01/2017' and the 'End Date' is '07/29/2017'. The 'Refresh' button is visible. The 'Brewing' section is active, showing a table of data. The table has columns: S, Tank, Prod #, ItemCode, Brand, Batch, MPN, Prod Date, Prod Time, Process Type, and Brew QC. The data is as follows:

S	Tank	Prod #	ItemCode	Brand	Batch	MPN	Prod Date	Prod Time	Process Type	Brew QC
R	BH01	12541	W1012	HEF	HEF110	379	07/20/2017	6:00	Brewing
