

Quick Start: How To Change Tank Capacity

Summary

If your tank fermenter is incorrect or you need to set a capacity on a new tank, you can update that by doing the following:

Step by Step Guide

1. Go to Administration->Setup->Inventory->Warehouses

2. Find your warehouse/fermenter in Find mode (CTRL +F)

Warehouses - Setup

Warehouse Code: Warehouse Name:

General Accounting

☐ Inactive

Tax Code: Location:

☐ Drop-Ship

☒ Nettable

☐ Allow Use Tax

☐ Enable Bin Locations

Street/PO Box: Street No.: Block:

Zip Code: City: County: Country: State:

GLN:

Find Cancel

3. Bring up the User-Defined Fields (CTRL +SHIFT + U)

4. Change the number in the Warehouse Capacity field and then click Update.

Warehouses - Setup

Warehouse Code: B99 Warehouse Name: Bright Tank - DEFAULT

General Accounting

☐ Inactive

Tax Code: Location: Main Brewery

☐ Drop-Ship

☒ Nettable

☐ Allow Use Tax

☐ Enable Bin Locations

Street/PO Box: Street No.: Block:

Zip Code: City: County: Country: State:

GLN: [Show Location in Web Browser](#)

Update Cancel

General

Tax Determination: N

Dynamic Timing Enforced: N

Warehouse Type: Bright Tank

Warehouse Capacity: 100

Warehouse Interval:

Use in Available to Promise: N
