

Alert - Warehouse without Location Set

Summary:

This alert notifies a user when a warehouse has not been set to a specific location.

Purpose of the Alert:

Locations are extremely valuable for filtering, for TTB reporting, and to assist in segmentation multiple locations. Imagine you have more than one brewing location and someone created a new warehouse, but forgot to set the location, it may not show up properly in several locations throughout the system.

Parameters:

Set this alert to run every morning.

Example Results / Scenario:

The query will display a list of warehouses are defined as either Brewhouse, Fermenter, Bright Tank, Finished Good, or Uni Tank, but do not have a location value set.

ALERT QUERY:

```
/* Warehouses Without a location
Alert for Warehouses with a Tank Type that do not have a location
set.*/
Select T0.WhsCode
      , T0.WhsName
      , T1.[Location] AS 'Location '
      , Case (T0.U_ORC_BE_WhseType)
        When 'BH' Then 'Brew House'
        When 'FG' Then 'Finished Goods'
        When 'BT' Then 'Bright Tank'
        When 'FV' Then 'Fermenter'
        When 'U' Then 'Uni Tank'
        Else 'NA'
      End AS 'Warehouse Type'
From OWHS T0
