

Payroll Import Interface

The following video will show you how to use the payroll import interface:

Summary

An easy to use interface that will take a payroll export from common providers and import into OrchestratedBEER as either draft documents or direct to GL account.

Description

The Excel-based user interface allows you to import a CSV from common payroll providers. You have the flexibility to define the data mapping to your GL Account so that you set the template once and simply import with the click of a button.

Note: The Payroll Import Interface is the same tool as the Expense Import Interface.

Version 4.5.1.0
