

How Do I Adjust The Volume In Barrels?

Summary

Its important to keep the volumes accurate in your barrels. Sometimes, a barrel leaks and spills some of that sweet deliciousness on the floor. Maybe the barrel fell off the rack when the fork lift was moving it and some spilled... either way its a sad day for everyone. This article will describe the process for adjusting the volume (up or down) on a barrel.

Step by Step Guide

First off, navigate to the *Barrel Management Console*, by going to Production -> Production Forms -> Barrel Management Console then click on the **Management** tab.

Recap

Behind the scenes Orchestrated performs a 'blend-like' scenario where the filled volume amount is issued out and the new volume is received into stock. This keeps the costs contained within the existing liquid.

Version 4.5.1.0
