

## Summary

There are two methods to empty tanks or destroy liquid.

### Common Method - Express Packaging Screen

- When Expressing your Packaging PdO (Production Order), opt to enter the remaining amount of liquid as the *Actual Quantity* in order to empty the tank.

### Alternative Option - Cellar Sheet - Goods Issue

- Click *Create New* button
- Select *Goods Issue*
- Click *GI* button
- Enter item and quantity
- Variance Reason: Blank or Destroyed
- Add > Select Batch > Add
