[Crystal Report] Display Currency On Right

Issue

Scenario: You are running an Orchestrated Crystal Report Layout and where a "$" should be appearing, it is replaced by a "9". This is after selecting the "Display Currency on the Right" checkbox in Administration > System Initialization > General Settings > Display tab > Display Currency on the Right. This setting is mostly used if you are viewing reports in foreign currencies.

Expected: Reports are defaulted to display as "$ xxx", but after selecting the Display Currency on the Right checkbox, they should should show as "xxx $".
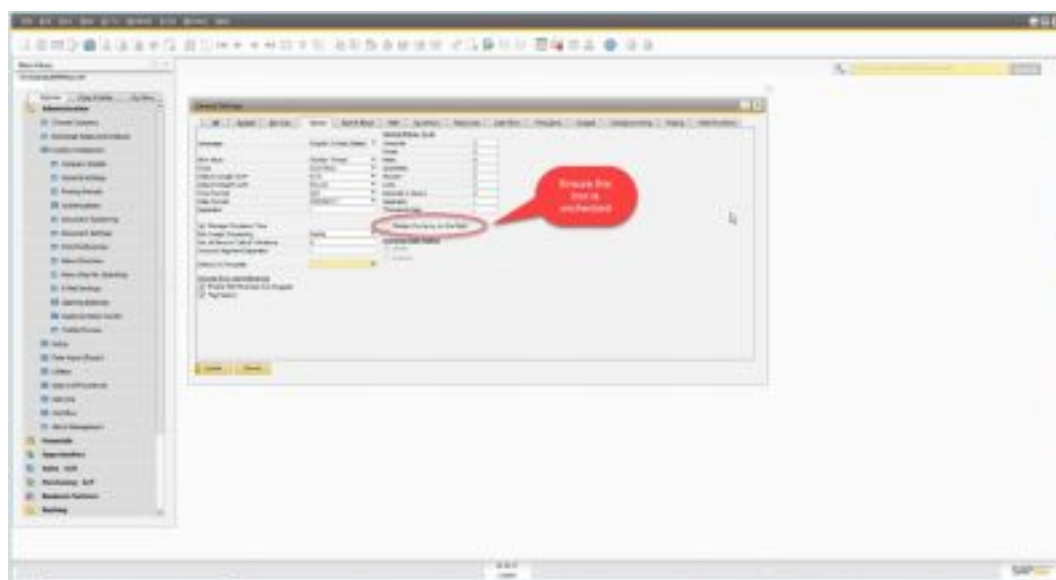

Actual: Some reports are displaying as "xxx 9".

Cause

This is a system issue with how Crystal Reports is converted.

Workaround

Ensure the checkbox next to "Display Currency on the Right" is un-checked

Resolution Future

release.

Version 4.7.1.16
