

Streamlined Task Generation for Targeted Sales Execution

Reduce the dependency of email when communicating with your sales team in the field, quickly identify target customers, and create tasks for proactive sales execution.

TARGETED SALES EXECUTION

Proactively create tasks and report on the execution of sales initiatives

- Generate tasks and send directly to sales reps
- Prompt reps to provide photos as proof of execution
- Report on sales initiative completion rates

Easily target specific customers in the market using Display Execution

- Compile a list of customers who are accepting placements in their stores
- Generate tasks for the sales reps who service these customers
- Easily supervise completion
- Utilize integrated robust reporting
