

Report Summary

Printed Report Title: Inventory Item Trace

Also, called a "Where Used" report, this will show you all of the BOM's that a selected item is consumed by.

Default Location In Orchestrated

Base Module: Production > Production Reports > Orchestrated Reports

Reports Module: Reports > Production > Orchestrated Reports

**These are the standard default locations. Your locations may be different.*

Typically Used by

Often used by Material Planners and Production Planners when a material is out of stock, you can see the items it's used on so those items won't get scheduled.

You could also use it when an old material is no longer available to find all of the BOMs that will need to be edited to use the new replacement.

Key Requirements

none

Parameter Entry Options

Required:

Select Item Code

Optional:

(none)

Parameter Entry Image

The image shows a software dialog box titled "- Selection Criteria". It features a yellow header bar with standard window controls (minimize, maximize, close) on the right. Below the header, the text "Select Item Code(s):" is followed by a yellow dropdown menu. At the bottom of the dialog, there are two yellow buttons: "OK" and "Cancel".
