

[Scheduler] - Inventory Transfers Only Appear On 1 Warehouse Line

Issue

Inventory transfer requests have a 'To' and a 'From' warehouse associated on each row of the document. The event currently appears in the 'To' warehouse in the following scheduler views:

- 📅 Warehouse Month
- 📅 Warehouse Week
- 📅 Warehouse Day

Workaround

There is no workaround to display the transfer request on both the 'To' and 'From' warehouse at this time.

Resolution

There is no planned resolution at this time.

Version 4.5.1.0
