

Report Summary

Show the next 4 days of production for a given start date in "production card" style format with key information about that production order including order and batch numbers, to/from WH and if any items have already been completed off of that order. Each process is printed on a new page for distribution to different work centers within the facility.

Default Location In Orchestrated

Base Module: Production > Production Reports > Orchestrated Reports

Reports Module: Reports > Production > Orchestrated Reports

**These are the standard default locations. Your locations may be different.*

Typically Used by

Production Managers, Supervisors and Brewers would use this on the production floor to communicate time and amount of product to be produced to production staff.

Key Requirements

None
