

Summary

This article will discuss the different fields that can be used to search for a PdO.

How To

Production > Production Order

When the *Production Order* pulls up it will be in **Add** mode. You will need to switch it to **Find** mode by either using Ctrl + F on your keyboard or clicking the binoculars on your Orchestrated tool bar.

The screenshot shows the 'Production Order' window with various input fields and a table. The 'Find' button is highlighted with a red box.

#	Type	No.	Description	Base ...	Planned...	Issued	Avail...	UoM ...	UoM ...	Wareho...	Issue Method	Distr. Rule

Once in find mode you will be able to search for PdOs using any the following fields:

- Type
- Status

- Product No.
- Warehouse (Searches by to warehouse)
- Master Prod # (MPN)
- Production Date
- Due Date
- Batch #
