Additional scenarios

No SO or delivery? No problem

During real life, there may be times that a SO or delivery may not be needed or might duplicate work. Perhaps a local customer dropped by and picked up a few kegs of beer. Maybe the A/R invoice was prepped and sent out at the same time as the delivery. So, in case these one-off scenarios occur, no problem. We want the software to match what happens in your day to day. The important (mandatory) step is to capture the A/R invoice.
