

Summary

An easy to use form to keep track of filter changes

Description

This is where you keep track of how often your filters have been changed out. Useful when trying to determine the rate at which you are using your SuperPaks / Profile Star / Plate filters

Details / How-To

1. Begin by navigating to OBeer Advanced QC → Cleaning and Sanitation → Cartridge Filter Changes

The screenshot shows the OBeer Advanced QC software interface. The left sidebar contains a tree view of modules. The main window displays a 'Cartridge Filter Changes' form. Red boxes and arrows indicate the navigation path: 1. OBeer Advanced QC, 2. Cleaning and Sanitation, 3. Cartridge Filter Changes.

Navigation Path:

1. OBeer Advanced QC
2. Cleaning and Sanitation
3. Cartridge Filter Changes
