

Summary

The Orchestrated platform comes with predefined 'best practice' processes to help you in organizing and processing production orders. These are based on the typical brewing or distilling process, but sometimes users want to mix-and-match what worksheets they appear on.

Step by Step Guide

- Navigate to *Inventory* → *Process Types*

- Press the golden arrow button to drill into your Process Type

Code	Name	Process Or...	Color	Exclude...
Brewing	Brewing	1		N
Cooking	Cooking	1		N
SUPERAWESOME	SUPERAWESOMEPROCESS	1	Yellow	N
Fermentation	Fermentation	2		N
Distilling	Distilling	3		N
Dry Hopping	Dry Hopping	3		N
Aging	Aging	4		N
Filtration	Filtration	5		N
Packaging	Packaging	6		Y
Keg	Keg	8	Green	Y

Buttons: Add New, Cancel

- From the Process Type, you may press the Add Worksheet, Remove Worksheet, or simply click on the *Display On* drop down and change the worksheet.

Code: Brewing Process Order: 1

Name: Brewing Color: Yellow

☐ Exclude from PdO Creation Wizard

Display On: Brew Sheet-Tab1

Buttons: Add Sheet, Remove Sheet, OK, Cancel

Red circle 1 is next to the 'Add Sheet' button. Red circle 2 is next to the 'Remove Sheet' button.

- Once you have finished making your change, press the *Update/OK* button.
